## DEHLER 32 – FOR LOVERS OF LIFE AND LIFE’S WINNERS

With the perfect combination of performance, beauty and comfort, the new Dehler 32 made its debut to revolutionise yacht classes between 30 and 33 feet. The Dehler 32 is a thoroughbred regatta cruiser, developed to take the lead in regatta racing. But the 10 metre yacht also offers the maximum comfort for relaxing sailing for couples or the family. The Dehler 32 is a true innovation with many

standardised fine details, which even on much larger yachts are only offered as extras. The generous hull beam equally provides both stability and extra space below deck while its modern lines generate rapid acceleration and high boat speed – this makes the Dehler 32 a winner of hearts and races. All details combine into a powerful total package which guarantees demanding regatta

sailors a top level of dynamics and power but whose easy handling also provides relaxing and safe cruising for two – in all weathers. Elegance and sport – a perfect combination “Made by Dehler”.
